

RESOLUTION NO. 89-178

A RESOLUTION OF THE LODI CITY COUNCIL  
AWARDING THE BID FOR REMOTE TERMINAL UNITS

=====

WHEREAS, the remote terminal units will be installed at the new Industrial Substation to interface this facility with the City's existing System Control and Data Acquisition (SCADA) system.

WHEREAS, the Electric Utility Department already has testing equipment, spare parts and staff trained for the existing Landis & Gyr SCADA system and since potential operating problems could arise by mixing remote terminal units, or a different brand, with the existing master unit, it is prudent of the City to purchase these remote terminal units from Landis & Gyr, rather than having a different manufacturer supply the equipment.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Lodi that the purchase of two remote terminal units from Landis & Gyr, San Jose, our existing SCADA system manufacturer, in the amount of \$44,884.25 be approved.

Dated: December 20, 1989

=====

I hereby certify that Resolution No. 89-178 was passed and adopted by the City Council of the City of Lodi in a regular meeting held December 20, 1989 by the following vote:
